

Task description

3.5.3 Links to screencast documentation (in PDF)

Each members make a youtube channel and upload the screen cast:

Instead of presenting in class you should record a Screencast to document and present the interactive story.

You can use quicktime or another screen recording app. You can edit the video with Adobe Premier if needed.

Duration:

Max. 10 minutes

Requirements:

- Links to the production (to all group members' youtube channel)
- what is the assignment about
- The team members and responsibilities in the project
- What was the most useful in the collaboration agreement.
- Given: [story], [style], [music]
- personas collage (point out the most important aspects)
- detailed storyboard (dramaturgic elements, staging, camera angles)
- character design and backgrounds
- sequence diagram and example of code
- Who were your experts in the expert test (how was the setup)
- what did the expert test lead to?
- Go through the interactive story
- what future enhancements would you consider?
